President's Message, Term 1 — 2018

I have barely got used to writing 2017 on things and already 2018 is creeping up on me. 2018 promises to be an exciting year for U3A Brisbane, with the implementation of outcomes from September's Strategic Planning workshop such as improved facilities and an expanded range of classes.

Adelaide Street rooms 18 and 19 are to be combined into a single space. This will allow more room for larger classes and will cater for one-off presentations. Thanks are due to Mark Kapper, husband of our Vice-President Marilyn Wagland, for his generous contribution of \$6,000 towards the cost of the renovations. Without Mark's donation this work would not have gone ahead.

For the past 10 years, Helen Carberry has co-ordinated U3A's Saturday morning IT classes. Helen has decided that the time has come to relinquish this role and is handing the baton over to Diane Arapovic, a long-time U3A member. Like Helen, Diane believes we need to try to keep abreast of the latest developments in IT – they affect our day-to-day lives, whether we like it or not.

We appreciate not everyone is able to commit to doing something every week – health issues, family commitments, travel plans all play havoc with our diaries. However we are always on the look-out for tutors, whether they are taking over from existing tutors or establishing a class new to U3A. Our members' interests range from aardvarks to Zanzibar, and everything in between! If you have a life-long interest or hidden talent you would like to share, why not contact our Tutor Liaison Officer, Gail Hawkins to discuss what is involved. Gail can be reached at: tutors@u3abrisbane.org.au.

U3A's major strength is its inclusivity. It doesn't matter where you were born, or how old you were when you left school, or if you have multiple PhDs or none at all. All that's required is a wish to learn and a preparedness to participate. Don't forget – participation includes active listeners as well as tutors. Not much fun preparing a talk if there isn't an attentive audience to enjoy it!

So far I have emphasised what you can bring to U3A, but the other part of the equation is what U3A brings us. This organisation has been an important part of my life for the past eight years and I can't imagine retirement without it and I am sure you can't either. A chance remark to an acquaintance recently revealed that he had never heard of U3A. I directed him to the website and when our paths next crossed, he told me that he had joined and was attending classes. His only problem was deciding which of his many interests to pursue. You too can help spread the message about U3A by asking the office for copies of our new brochure and leaving a few in retirement village foyers, service and sporting clubs, health centres and so on.

The Management Committee hopes you will find much in this newsletter to whet your appetite for next term and we look forward to catching up with you in 2018.

X124 GOING SOLAR *NEW*

Dale Van Every 0408 767 176 (anytime)

Email: dalevanevery@optusnet.com.au

I installed a solar HWS at my house in 2009 and a 1.5kW solar PV system on my roof in 2010. It was early days for solar in Australia. Capital costs were high but Government incentives were equally so. In 2017 family members asked if I thought solar would be "good" for them and prompted by their requests I looked again at the economics of solar for domestic use. After completing the studies and installations I put together a story on how it all went. This course "Going Solar" tells that story. It should help those who are thinking about going solar and also those who want to get the best out of a system they

already have.

This non-religious course applies the integrated nature of the text to enable members to learn to unlock the meanings of difficult passages for themselves by using the Bible to interpret the Bible. Each week examines one or more passages in detail. Members may nominate topics. Suitable for new and continuing members.

H51 HISTORY - ENGLAND IN THE 15TH CENTURY

NEW

Maureen Lillie 0412 526 977

Email: maureenlillie@gmail.com

This is a very interesting period bracketed by the huge population loss caused by the Black Death in the late 14th century and the discovery of the New World. There were changes to everyday life; the Wars of the Roses changed the ruling dynasty in England and new technology allowed ideas on science and religion to spread. Recent finds are causing a re-examination of the century and our ideas about it. Classes will be structured according to the Medieval divisions of society: those who fight, those who work and those who pray. We will also sample some medieval food, music and handle or try some reproduction clothing items.

We will finish Bk. 8 of Ovid's Metamorphoses (Ovid is probably the cleverest of the Roman poets, certainly the funniest). We may then consider Lucretius' de natura rerum, the only surviving work of modern scientific thinking to come from ancient times (it covers atomic theory). Thereafter we may read another book (Bk. 2?) of Vergil's Aeneid.

E28 SOCIAL JUSTICE & AUSTRALIAN SOCIETY

Ongoing

Lawrence di Bartolo

Email: ldibartolo3@gmail.com

We have heard the term 'fairness' used quite often by our political leaders and others in positions of power. But what does this term mean? Does it mean equal opportunity for all? Should it mean more than this if Australia is to be the egalitarian society it claims to be? We will consider the meaning of social justice and its contested nature. We will then proceed to look at aspects of Australian society - for example, inequality, gender, race, sexuality and ageism to help determine how fair/socially just Australian society really is. There will be a \$5 cost per term for photocopying.

It will allow you listen through art and develop an understanding through imagery - maybe colours, shapes, symbols and stories without

L73 GETTING TO KNOW HAMLET

Elizabeth Woolaston 3374 0610 0402 431 929 (5 - 7 pm)

Email: ejwoolaston@hotmail.com

We will use a close study of text accompanied by film excerpts, mini-lectures, discussion and interactive tasks, including a little acting, to move towards our own readings of "Hamlet". The focus will mainly be on the play as a Revenge Tragedy in order to tease out what is and what is not acceptable in the taking of revenge. Here, "to be or not to be" is not interpreted as a life and death choice for Hamlet but rather a choice between taking action, which could be seen to be unlawful and immoral, or passively accepting fate.
