President's Message, Term 1 2019

Another year draws to a close and what a successful year it has been! Record growth; record number of classes offered; new tutors joining our ranks; AV equipment upgrades; further improvements to our IT system; the expansion of what is now Room 18 which has proven to be an invaluable space — the list is never-ending.

Of course, none of this would have been possible without the dedication of our fantastic team of volunteers who get in there and get the job done without any fuss. A perfect example of this was the amount of time and effort required to make Winter School run like a well-oiled machine. I would like to take this opportunity to thank all the volunteers and tutors who have carried out all sorts of roles throughout the year to keep U3A running so smoothly. I would love to acknowledge you individually, but the list would be far too long. A very big THANK YOU and WELL DONE.

During Term 4 our Vice President and Winter School Coordinator, Marilyn Wagland, returned from an extended 'Grand Tour' of Europe – but it wasn't all fun and games. Marilyn attended Cambridge University's Girton College Summer School for mature age students, joining her peers from around the world to experience life in what is one of the world's most prestigious universities. A wonderful experience but, unfortunately, photographs she took to make a presentation on her return were on a tablet which was stolen after she left Cambridge. Some photographs have been retrieved from Facebook, and she is trying to source others from contacts at the college. Along with her duties as Winter School Coordinator, Marilyn will continue to organise one-off presentations as the opportunities arise as these have proven to be extremely popular during 2018.

I mentioned record growth in my opening paragraph but that does come with its own set of problems. We must always be trying to ensure that as many members as possible have access to classes of their choice. The only way this can happen is by increasing our class offerings, but that also means we need more tutors / facilitators. This is where members can help: if you know someone with a talent or expertise, please encourage them to contact our tutor liaison officer, Gail Hawkins.

Finally, I must say how proud I am to have the honour of being President of such a vibrant and progressive organisation such as ours as we have so much to offer. I hope you all enjoy Term 1, 2019 and would like to wish you all a very Merry Christmas and a Happy New Year with your family and loved ones.

Tutors Wanted

Tutors at U3A Brisbane are all volunteers from all walks of life. The common thread that ties them together is the desire to generously share their skills, talents, experience and knowledge with their fellow members. They are the vital engine that drives the organisation. If you have ever considered the idea of tutoring, then here is opportunity knocking loudly. We need more tutors in all districts to cope with the thirst for knowledge of our growing membership.

We have a particular need for more language tutors, so if you are qualified to teach a language, either as a native speaker or a language teacher, please contact the appropriate District Coordinator above. We also have a high demand for more History classes.

Potential tutors in other subjects are also warmly welcomed.

Raymond Sarlin 0491 124 666

Email: ray.sarlin@ymail.com

Suitable for anyone wishing to learn more about the Bible.

The Reformation was 500 years old in 2017, so it's useful to re-examine the Bible with fresh eyes and updated historical and scientific evidence. Greek Bibles flooding Europe from Islam's conquest of the Byzantine empire in 1453 actually prompted the Reformation. This non-religious course applies the integrated nature of the text to enable members to learn to unlock difficult passages for themselves by using the Bible to interpret the Bible. Each week examines one or more books, chapters or passages in detail. Members may nominate topics; no part of the Bible is off limits. Suitable for new and continuing members.

E36 PEACE STUDIES - IS PEACE POSSIBLE?

Anita Reed 3343 7392

Email: anita.reed02@gmail.com

In our world today when war is raging overseas and millions of refugees caused by those wars are seeking homes in other countries, when leaders threaten openly and loudly to use nuclear weapons, when the number of nuclear warheads in the world is increasing and the speed of intercontinental missiles is almost unbelievable, when mishaps and

false alarms tell us that nuclear missiles are on the way, and war is sometimes prevented only by good luck, is there any hope of world peace or is war inevitable? Can anything be done about it? If so, what should be done to make a better, more peaceful world for our children and grandchildren?

M35 MUSIC (HOW TO ENJOY & LISTEN TO THE MANY INGREDIENTS OF MUSIC)

Bernie Hoesman 3366 2619

Email: bhoesman@brisnet.org.au

Music is everywhere: in the concert hall, on videos, CDs and movies. Even the mobile phone 'ring tone'. Do we/you listen to music or merely hear the sounds? But "hearing" and "active listening" are two different skills. Together we explore the building blocks of music - rhythm, pitch, form, expression etc - through listening to excerpts from some of the great music of yesterday and today. In this way we study the totality of music, explained in terms that are clear, precise, meaningful and entertaining. We enhance the musical experience by learning to listen

to music with a greater understanding of its substance and appreciation.

We also look at ways of learning how to 'defend' ourselves from being the recipient of any of these bombshells when others interject. And we try learn how to manage our conversations with others, not just in an 'effective' manner but, vitally, in a mutually rewarding or win/win way!

Dr Michael Kelly

Email: metmkelly@bigpond.com

This class covers some of the best and most important works of the ancient Roman authors (especially Roman poets). While our classes are extremely informal, a sound preparation is - of course - necessary for those who seek to gain the most. We will finish Bk. 8 of Ovid's Metamorphoses (Ovid is probably the cleverest of the Roman poets, certainly the funniest). We may then consider Lucretius' de Natura Rerum, the only surviving work of modern scientific thinking to come from ancient times (it covers atomic theory). Thereafter we may read another book (Bk. 2?) of Vergil's Aeneid.

Ongoing

Lawrence di Bartolo

Email: ldibartolo3@gmail.com

Should it mean more than this if Australia is to be the egalitarian society it claims to be? We will consider the meaning of social justice and its contested nature. We will then proceed to look at aspects of Australian society - for example, inequality, gender, race, sexuality and ageism to help determine how fair/socially just Australian society really is. There will be a \$5 cost per term for photocopying.
