President’s Message, Term 3 2019

Winter, or what we laughingly call winter in this part of the world, has arrived with those cool nights, crisp days and blue skies that seem to go on forever. We are certainly blessed to live where winter doesn't mean digging ourselves out of feet of snow!

This time of the year is also great for another reason – our Winter School which commences on the 8th July. This is our premier event of the year and the Winter School committee has been working tirelessly again to make it even bigger and better than last year’s. The program is now out (see pages 4-7 for a summary), and you can make bookings via our website: www.u3abrisbane.org.au. This is an open event so feel free to invite your relatives and friends to come along – they may just like it enough to consider joining our organisation and becoming U3A members.

Reading through the class offerings the other day reminded me that about a third of our classes are held outside of the Brisbane CBD venues. They spread from Brackenridge in the north to Beenleigh in the south, Wynnum in the east to the western boundaries of Brisbane. If you find coming into the city a bit of a chore, why not check this Class Schedule to see what is on offer in your area. The classes are normally free as most are held in venues such as public libraries that don’t charge a fee.

As I recently mentioned in my May eNews message, a number of the current committee will reach the end of their allowable tenure in 11 months and new talent will be required to fill a number of consequential vacancies. This won't happen until the April AGM in 2020 but the current committee feels it is imperative to commence the process of identifying possible candidates as soon as possible to allow people to become familiar with what is required of the various positions that run our organisation. I would encourage anyone who feels they have the ability to continue the success of our U3A, to make themselves known to either myself on president@u3abrisbane.org.au or a member of the Management Committee. I’m sure you will find, as I have, that these are not only important roles, but also very satisfying ones.

On that note I will conclude by wishing all members a very happy and satisfying Term 3.

Greg Doolan
President

X02 LAW - OUR RIGHTS
Greg Cudmore
Email: g.cudmore@gmail.com
In a democratic society, it is easy to take our rights
for granted. We sometimes wrongly assume the rule
of law is commonplace in the international
community, when for millions living in authoritarian
regimes they have few, if any rights. Civil libertarians
warn that even in democracies today, citizens' rights
may be being eroded. Because 'Ignorance is No
Excuse', it is critical that we are aware of our rights
and are vigilant if our rights are under threat. It is
important that we are also aware of the ways to
enforce and protect our rights.

Harmony is the defining feature of western music as well as its core. Rameau wrote that 'a knowledge of Harmony is sufficient for a complete understanding of all the properties of music.' Harmony tells how to select chords to accompany a melody. The majority of its practitioners are guitar strummers who cannot read music. Therefore, reading music is not required in order to understand harmony. In this course you will become familiar with the whole range of chords used in Harmony, and how they are used, in examples ranging from nursery rhymes to orchestral pieces

We will finish Bk. 8 of Ovid's Metamorphoses (Ovid is probably the cleverest of the Roman poets, certainly the funniest). We may then consider Lucretius' de Natura Rerum, the only surviving work of modern scientific thinking to come from ancient times (it covers atomic theory). Thereafter we may read another book (Bk. 2?) of Vergil's Aeneid.
