President’s Message, Term 1 2020

Someone asked me the other day, “Where has the year gone”? I couldn’t provide a definitive answer, but replied that it was a perception shared by many of our age group: the longer we live, the faster the time appears to go. This got me reflecting on my own situation and I realised that I have now been retired for close on 10 years, although it sometimes seems like only yesterday. Personally, I think the answer is not to dwell on how fast time seems to be going but just enjoy every day that you have and, what better place to do that than at our U3A.

I thought I would take this opportunity of reminding members that the membership fees for 2020 are due 1st January. I encourage you not to wait until the New Year to renew but to do it before the end of the year. That way, you’ll avoid the rush of people wanting to pay their renewals just before the start of Term 1 in late January. Of course, one of the simplest ways to renew your membership is to do it online. It’s quick and safe – just log on to our website: www.u3abrisbane.org.au and click on Membership Renewal – it’s that easy. Alternatively, you can renew at the Office if you wish and pay by cash or credit card. Both Visa and Mastercard are accepted.

I have some Management Committee news to share with members. We recently received the resignation of long-term former Treasurer and committee member Greg Williamson. The committee would like to thank Greg for his astute financial management over his many years as Treasurer which has placed our U3A in a strong financial position for the future. We wish Greg and his wife Helen all the best for the future.

I would suggest members take the time to peruse this Term 1 class schedule carefully as there are quite a few new subjects on offer that may appeal in addition to your usual choices. Most are available in our city campuses, but also check our district offerings as well as some may be very close to where you live. You could save yourself a trip into the city. An added bonus is that most district classes are free.

I would like to take this opportunity to wish all members a great Christmas and Happy New Year with your family and friends. Stay safe and we look forward to having everyone return in January for another great year of learning, socialising and fun.

Greg Doolan
President
Upcoming Social Committee Events

If you have any suggestions for trips that may be of interest, you can contact the Social Committee via email: social@u3abrisbane.org.au

H51 HISTORY - ENGLAND IN THE 15TH CENTURY

This is a very interesting period bracketed by the huge population loss caused by the Black Death in the late 14th century and the discovery of the New World. There were changes to everyday life; the Wars of the Roses changed the ruling dynasty in England and new technology allowed ideas on
science and religion to spread. Recent finds are causing a re-examination of the century and our ideas about it, but there are persistent myths. What was it like to live in those times?

Raymond Sarlin 0491 124 666
Email: ray.sarlin@yahoo.com
The Reformation was 500 years old in 2017, so it's useful to re-examine the Bible with fresh eyes and updated historical and scientific evidence. Greek Bibles flooding Europe from Islam's conquest of the Byzantine empire in 1453 actually prompted the Reformation. This non-religious course applies the integrated nature of the text to enable members to learn to unlock difficult passages for themselves by using the Bible to interpret the Bible. Each week examines one or more books, chapters or passages in detail. Members may nominate topics; no part of the Bible is off limits. Suitable for new and continuing members.

Since the coming of synchronous sound to filmmaking in 1928, music has been intrinsic to cinema. The genre of the musical has been broad enough to include many types of story and setting. We concentrate on one type of film that has featured actual, historical Western music makers, whether composers, performers or both, as rendered in the biopic, the documentary and even the occasional art film. Musicians include Chopin, Cole Porter, Bernstein and jazzman Charlie Bird, while films such as AMADEUS, TOPSY TURVY, 'S LOVELY, LOVE ME OR LEAVE ME and SHINE will feature.

H39 THE BATTLE FOR AUSTRALIA 1942-43
Derek Cameron 0403 178 210
Email: the.camerons2@bigpond.com
This unit offers an analysis of the causes, course and consequences of the Kokoda Track campaign, including an evaluation of the controversies about personalities, strategy and tactics surrounding it. Its significance for later history and indeed whether or not we should talk of a "Battle for Australia" will also be explored. The course includes numerous exercises based on the sources and links to further information. By comparison with other campaigns in World War Two (such as the awesome armies involved in the titanic struggles in Russia), the opposing forces on the Kokoda Track were minuscule.
Adelaide St Thursday 12:30pm - 1:45pm
I installed a solar HWS at my house in The Gap in 2009 and a 1.5kW solar PV system on my roof in 2010. It was early days for solar in Australia. Capital costs were high but Government incentives were equally so. In 2017 and 2019 other family members asked me if I thought solar would be ‘good’ for them and prompted by their requests I looked again at the economics of solar for domestic use. After completing the studies and installations I put together a story on how it all went. This course ‘Going Solar’ tells that story. It should also help those who want to get the best out of a system they already have.

Getting a good Tradie is never easy. There are so many things to be considered, when you want it and how much it is likely to cost. Even with the aid of service sourcing websites, there are still many questions to be answered and electronic forms to be filled in. It is a daunting task, that often results in getting a quick quote from someone in the local paper, and hope for the best. The end result is often disappointing and costs more than it’s worth. This course gives the methodology aimed at ensuring you have a great chance of getting what you want, when you want it and for a competitive price.

J30 LATIN ADVANCED
Dr Michael Kelly
Email: metmkelly@bigpond.com
This class covers some of the best and most important works of the ancient Roman authors (especially Roman poets). While our classes are extremely informal, a sound preparation is - of course - necessary for those who seek to gain the most. We will finish Bk. 8 of Ovid's Metamorphoses (Ovid is probably the cleverest of the Roman poets, certainly the funniest). We may then consider Lucretius' de Natura Rerum, the only surviving work of modern scientific thinking to come from ancient times (it covers atomic theory). Thereafter we may read another book (Bk. 2?) of Vergil's Aeneid.

If, like me, you have grandkids and feel responsible in some way for this problem we are leaving them, then I can promise you, understanding it better is a good thing to do. And that is not easy. The climate problem is a geophysical problem - that is, something that needs scientific insight to know about it; and it is also a profound moral problem, which, in the real world makes it both political and personal.
